Hi Steve. I'm up in Craig. Had a tour of the power station yesterday, coal mine today. I think I told people to meet at 8:45 at the Silverton visitor center, but I'll send out more details when I get back home tonight. In the morning we will look at sites in Mineral Creek. In the afternoon, we'll go up Cement Creek and look at the Mayflower Tailings ponds from the road.

I think the Mineral Creek piece in particular would be really useful for EPA. Get a better understanding of where everything is.

Peter

Peter,

As of now, I will plan to attend. I have family in town at this time, so I was not sure about making it. Do you have any details to share on the timing, etc – I apologize if that's been provided and I missed it.

Thanks,

Steve
